Commencement of Awatere aerial possum control

Vector Free Marlborough Limited has advised us that it will be commencing the aerial application of toxic bait to the Upper Awatere South control area in Marlborough, from daylight on Saturday 8 June 2019.

The operation is being carried out on behalf of TBfree New Zealand to control possums to prevent the spread of tuberculosis.

Additional information and maps of the control area may be obtained from <http://www.vectorfree.co.nz/> or by contacting communications@vectorfree.co.nz.
