Game Animal Council
NEW ZEALAND

South Westland pest control operations

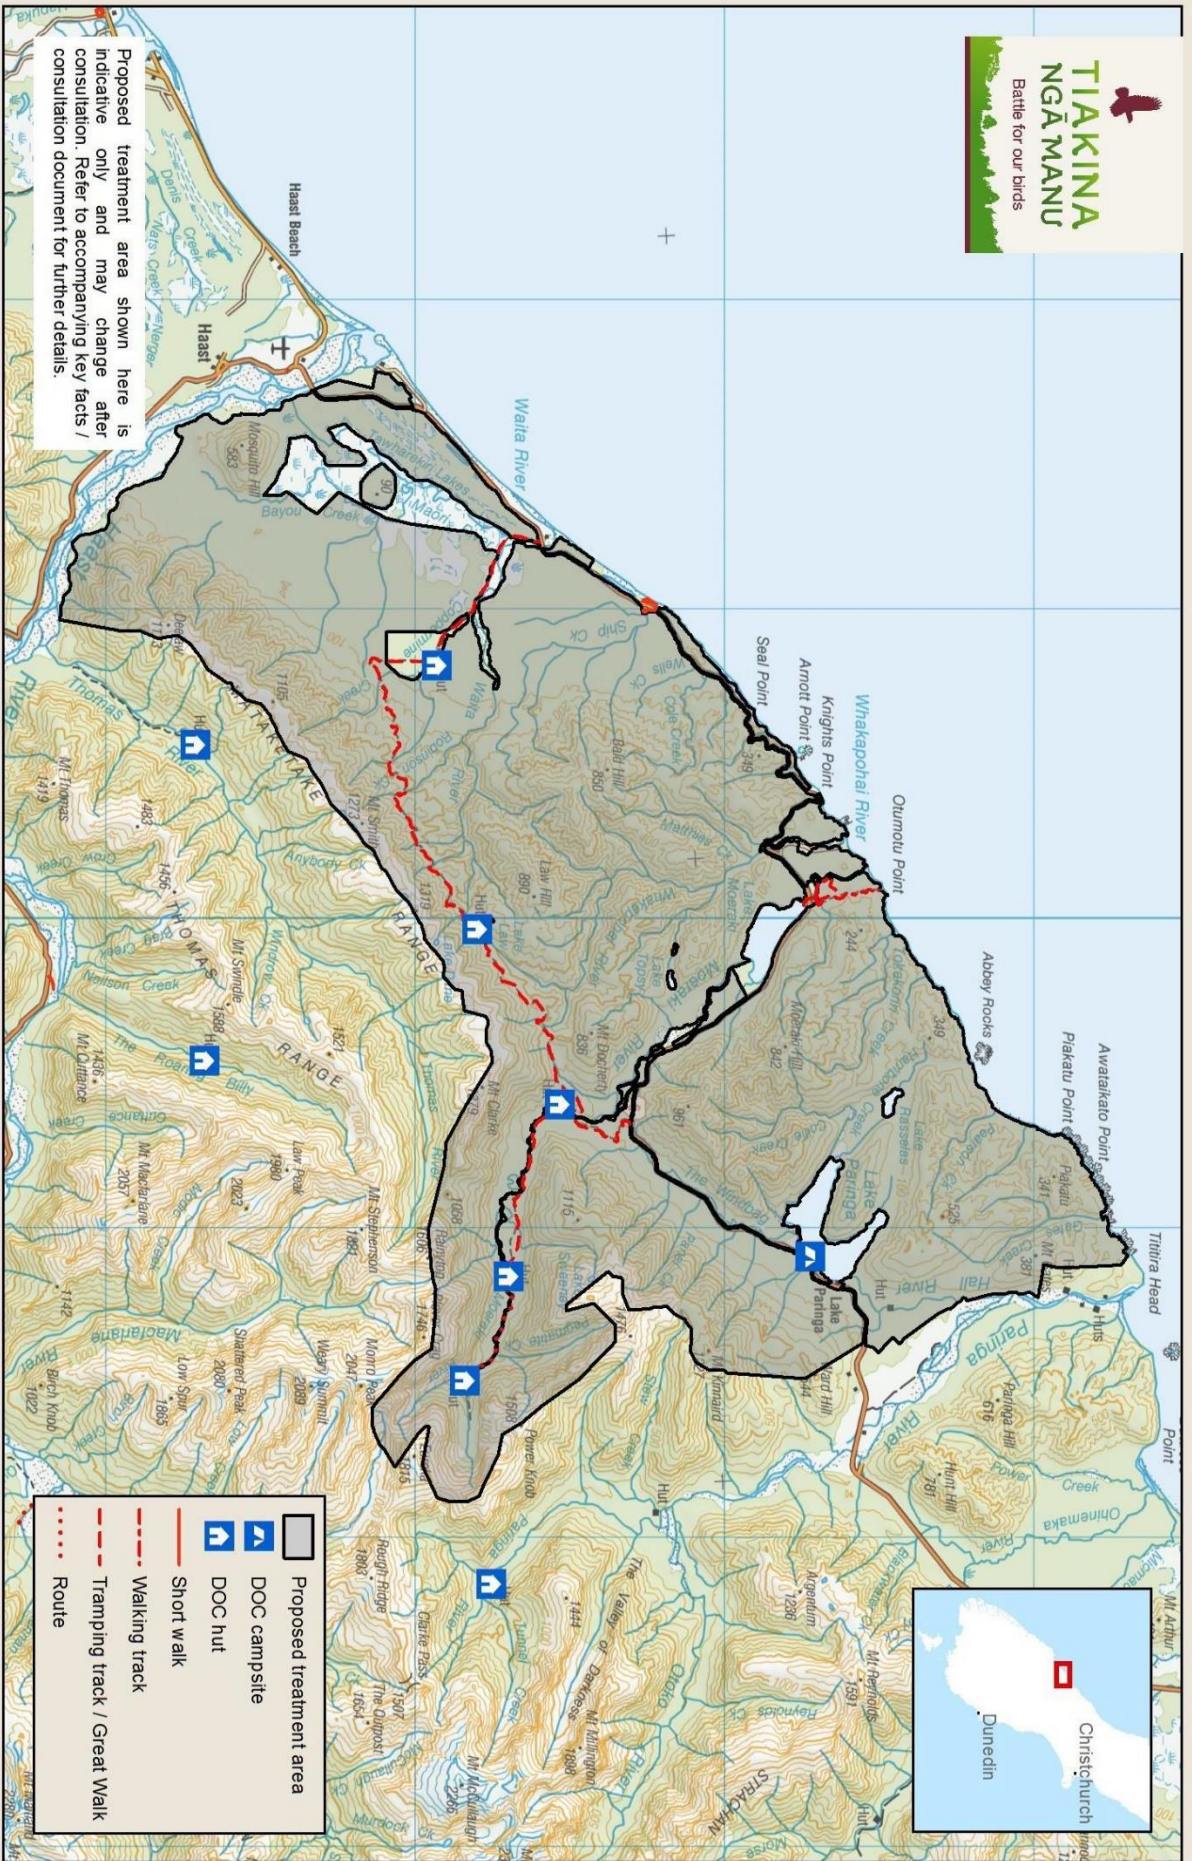

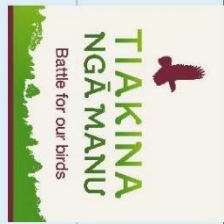

DoC has informed us that they intend to conduct aerial pest control operations in the areas known as Abbey Rocks and the Mataketake, Whakapohai, Moeraki (MWM) using 1080.

It is proposed that the operation will occur during a suitable period of weather from 1 July 2019 through to September (subject to consent approval). Dates will vary between sites and will be confirmed closer to operations taking place.

Please refer to the map of the operational area on the following page.

If you have concerns on how this may affect you, or if you would like to request 24-hour notice of when the operation will proceed and/or post-operational notification, please forward these requests to:
